BOARD OF DIRECTORS

The OVOF Board is made up of committed community leaders who champion the region in a unified voice. Board members uphold the ideals of community, commitment, and passion. They believe in helping and advocating for the community's long-term vision as reflected in the OVOF Action Plan and its projects, programs and initiatives.

HISTORY

OVOF was founded in 2014 by community leaders concerned about big regional challenges, including the Alcoa plant's closure, more frequent wildfires, a housing crisis, low educational attainment rates, and a cultural divide. Since then, OVOF has guided the development of two community Action Plans and witnessed more than 100 projects and programs meet their objectives thanks to the work of lead partners and supporters.
